About us

A leading 100% Mexican company founded in 1992, specializing in the design and development of high-impact infrastructure projects.

+30 YEARS OF EXPERIENCE

COMPLETED PROJECTS **+175**

We build Mexico's future with excellence

Quality policy

At Rokar Construcciones, we are committed to the design, management, and execution of construction projects while meeting high standards of quality, safety, and compliance. We effectively address the needs of the public and private sectors throughout Mexico.

Mission

"To drive Mexico's development by providing timely and effective solutions to the needs of Mexican society, through the development and improvement of urban and rural infrastructure, optimizing every project with the highest standards of operation, schedule, cost, and quality."

Vision

"To expand, consolidate, and strengthen our presence in the market through technological innovation, comprehensive development, and diversification of projects, driven by the commitment, loyalty, and trust of our people."

Values

"With leadership, credibility, and ethics in every detail, we foster a culture of harmonious coexistence that provides certainty to our clients and team, building a legacy of trust, results, and collective well-being."

Distinctions and certifications

ISO 9001:2018, International Standard for Quality Management Systems (QMS), developed by the International Organization for Standardization (ISO).

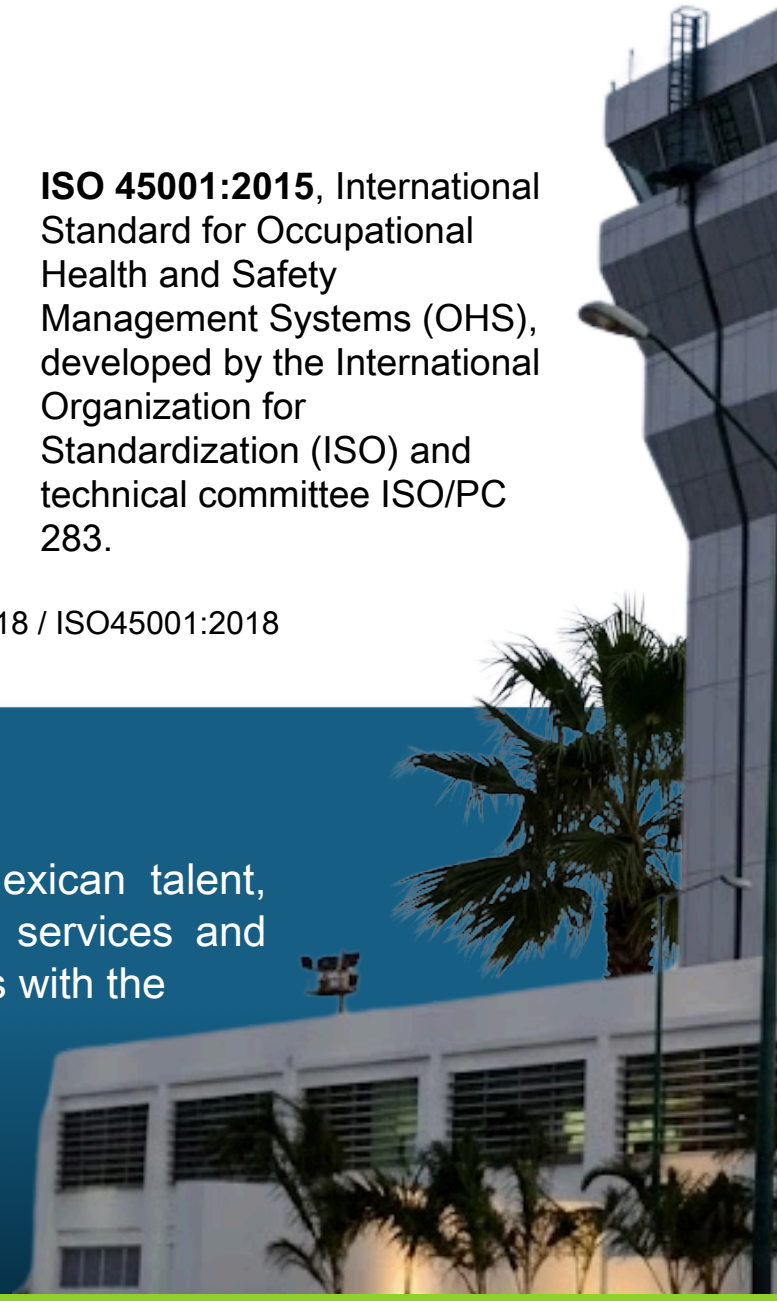

NMX-CC-9001-IMNC-2015 / ISO 9001:2015

ISO 45001:2015, International Standard for Occupational Health and Safety Management Systems (OHS), developed by the International Organization for Standardization (ISO) and technical committee ISO/PC 283.

NMX-SAST-45001-IMNC-2018 / ISO45001:2018

“Made in Mexico” Seal, world-class quality.
Rokar Construcciones is backed by 100% Mexican talent, creativity, and innovation, offering competitive services and reaffirming our presence in international markets with the official distinction granted by the Ministry of Economy, in collaboration with the industrial sector and certification bodies.
